# Lee Lisheng Huang

MAR 23, 1964 - FEB 10, 2025

**L**ee Huang, a brilliant mind, adventurous spirit, and kind-hearted soul, wrapped up his extraordinary journey on earth, leaving behind a legacy of invention, love, and laughter. A physicist with a master's degree and a penchant for turning big ideas into reality, Lee wasn't just an entrepreneur—he was an explorer of possibilities, forever curious and rarely idle.

His athleticism was so impressive, he could easily master soccer, badminton, ski, golf and tennis, much to the frustration of anyone who dared challenge him on the court or course.

Lee was smart, kind, and endlessly optimistic. He believed there were no problems, only puzzles waiting to be solved. He approached life with the same determination and humor whether he was solving a physics equation, inventing something clever, or navigating the chaos of fatherhood.

A devoted husband and proud father of two, Lee's greatest joy was his family. He was also a beloved friend to many, the kind of person who lit up every room and made life more fun just by being part of it. His friends adored him, and their love and laughter will forever keep his memory alive.

Lee, you've left us far too soon, but you'll always be remembered with a smile. Rest easy—and maybe take on heavenly ski and celestial golf, until we meet again.

In loving memory of Lee, we are organizing a farewell tribute. In lieu of flowers, we invite you to contribute to a special fund that will support the charities that were close to Lee's heart. Donations can be sent via Zelle to Tracy Song at 916-230-0796, with the memo "For Lee".

Lee was a valued member of our scientific community, always eager to discuss new discoveries and share his passion for research. He was not only brilliant but also a kind and engaging presence in the office—someone who made every conversation meaningful. He will be deeply missed, but his curiosity, camaraderie, and enthusiasm for science will always be remembered. Our heartfelt condolences to his family and loved ones

力生兄，自1988年在西雅图相识，同一宿舍有半年有余，学习之余共同专研修理汽车，受益匪浅，从些对未来充满信心，自觉前途光明。后各自奋斗，又在硅谷重聚，对各自的事业相互关望鼓励。今不幸消息传来，登失言辞，英年匆匆，望路上慢行，青山常在！
